Encouragement: Key to Caring book available

Regardless of the number of professional and pastoral counselors available, most people will also share their problems with a friend. That is why Dr. Crabb developed *Counselling by Encouragement*. This practical, true-to-the-Bible course is based on the concept that caring, mature Christians in local churches can and should learn to have a conversational ministry.

During the 13 sessions of *Counselling by Encouragement* you will learn how to:

- Recognize opportunities to care and help others
- Encourage on another toward love and good deeds through the power of words
- Develop a continuing ministry of love and encouragement
- Control feelings of anger and frustration, understand their causes, and change them into positive encouragement.

This series has been widely used to teach groups to be sensitive to others needs and to meet them.
